Permuted Title Index

Volumes 70 and 71
January–December 1983

acetylcysteine /Attempt to prevent doxorubicin-induced acute human myocardial morphologic damage with **71:917**
α_1-acid glycoprotein to monitor therapy of cancer patients /Evaluation of a radioimmunoassay for **71:25**
Actin changes in normal human and rat leukocytes and in transformed human leukocytic cells **70:805**
acute and chronic myeloid leukemia /Urinary excretion of β-aminoisobutyrate and pseudouridine in **71:887**
acute human myocardial morphologic damage with acetylcysteine /Attempt to prevent doxorubicin-induced **71:917**
acute lymphoblastic leukemia /Relationship of urinary excretion of modified nucleosides to disease status in childhood **71:269**
acute lymphocytic leukemia cell surface markers as detected by monoclonal antibodies /Heterogeneity of **71:11**
adenocarcinoma clonogenic cells: Epithelial properties and hormone response /R3327 prostate **70:1057**
adenocarcinoma LT-85 /Identification of Ia antigens on the murine **71:825**
adenocarcinomas in mice /Effect of dietary 18-carbon fatty acids on growth of transplantable mammary **71:601**
adenocarcinomatous prostate glands /Human cytomegalovirus and herpes simplex type 2 virus in normal and **70:819**
adenoma by a single gene in BALB/cBY mice /Major effect on susceptibility to urethan-induced pulmonary **70:931**
adenoma formation in the HPB mouse /Sequential histopathologic analysis of α-hexachlorocyclohexane-induced hepatic megalo- **71:1307**
adenoma in the sigmoid colon and rectum /Binding of *Ulex europaeus* agglutinin-I in polyposis coli: Comparative study with soli- **71:19**
adenomas in the rat /Experimental induction of parathyroid **70:127**
adenosine deaminase in tissues of rats given injections of 2′-deoxycoformycin /Morphologic changes and immunochemical local- **71:999**
adenovirus 2 /Analysis of lectin receptors on rat embryo fibroblasts transformed by **70:943**
β-Adrenergic receptors in pediatric tumors: Uncoupled β_1-adrenergic receptor in Ewing's sarcoma **71:779**
aerosols in W rats /Carcinogenicity of cadmium chloride **70:367**
aflatoxin B_1-DNA adducts and in vitro transformation in mouse embryo fibroblasts C3H/10T½ /Removal of **70:135**
aflatoxin B_1-induced hepatic preneoplastic lesion development /Dietary protein intervention during the postdosing phase of **70:547**
age- and sex-specific incidence rate patterns of the leukemia complex in the cat and the dog /Comparison of **70:971**
age at death of rats with tumors /Dietary practices of early life and **71:947**
age at time of *N*-nitroso-*N*-methylurea administration /Mammary carcinogenesis in rats in relation to **70:209**
aged F344/NCr rats to the effects of phenobarbital on the incidence, morphology, and histochemistry of hepatocellular foci and **71:815**
age /Immune responses of healthy humans 83–104 years of **71:265**
agglutinin-I in polyposis coli: Comparative study with solitary adenoma in the sigmoid colon and rectum /Binding of *Ulex euro-* **71:19**
aging goldfish (*Carassius auratus*) /Incidence of chromatoblastomas in **70:523**
AKR, C57BL/6J, and CF1 mice to 1,2-dimethylhydrazine-induced colonic tumor formation predicted by proliferative character- **70:279**
AKR leukemia: Studies with X-chromosome inactivation cellular mosaicism /Clonal nature of mink cell focus-inducing virus-in- **70:529**
aldrin-metabolizing activities in cultured human and rat hepatoma cell lines /Benzo[*a*]pyrene- and **71:281**
alkylating agents /Induction of neoplastic transformation and DNA single-strand breaks in C3H/10T1/2 clone 8 cells by poly- **71:991**
alkyl lysophospholipid /Cell destructive activity in the serum of a tumor patient after infusion of **70:623**
allogeneic peritoneal macrophages in vitro: Influence of antiserum /Destruction of murine lymphoma cells by **70:181**
alloimmunization of mice with normal cells /Alloreactivity and tumor antigens: Generation of syngeneic antilymphoma killer **70:291**
amines /Effect of lithocholic acid on the mutagenicity of some substituted aromatic **71:293**
amines /Organ, species, and compound specificity in the metabolic activation of primary aromatic **70:1077**
amino acid derivatives with the fluorene substituent on murine leukemia viruses /Antiviral effects of **70:275**
β-aminoisobutyrate and pseudouridine in acute and chronic myeloid leukemia /Urinary excretion of **71:887**
2-amino-3-methylimidazo[4,5-*f*]quinoline to dietary fibers /In vitro binding of the food mutagen **70:757**
anchorage-independent growth among spontaneously transformed Balb/3T3 cells /Colony morphology and heritability of **70:1087**
anchorage-independent growth of human melanoma cells by a monoclonal antibody to a chondroitin sulfate proteoglycan /In- **71:259**
androgen-insensitive cells in R3327-G rat prostate tumors: Diethylstilbestrol diphosphate treatment versus orchiectomy /In- **70:907**
Androgen stimulation of gross cystic disease fluid protein and carcinoembryonic antigen in patients with metastatic breast carcinoma **70:69**
animal cells in vitro /Guest Editorial: Relative difficulties in transforming human and **70:3**
anionic density /Heparin effect on DNA synthesis in a murine fibrosarcoma cell line: Influence of **71:615**
anoxia and growth of a murine transplantable tumor /Atmospheric pressure effects on tumor growth: Hypobaric **70:739**
anterior chamber-associated immune deviation /Promotion of syngeneic intraocular tumor growth in mice by **71:193**
anterior pituitary gland tumors of the rat /Contribution of body weight and growth to risk of **70:1119**
anti-A and anti-B monoclonal antibodies /Human blood group isoantigen expression on normal and malignant gastric epithe- **70:679**
antibodies /Heterogeneity of acute lymphocytic leukemia cell surface markers as detected by monoclonal **71:11**
antibodies /Human blood group isoantigen expression on normal and malignant gastric epithelium studied with anti-A and **70:679**
antibodies. III. Interferon treatment of a natural killer-resistant lymphoma: Augmentation of natural antibody reactivity and suscep- **71:377**
antibodies to tumor-associated antigens and to histocompatibility antigens /Antigenic heterogeneity of skin tumors of nonmela- **71:439**
antibody activity in melanoma patients /Prognostic significance of leukocyte-dependent **71:45**
antibody /A human breast tissue-associated antigen detected by a monoclonal **70:409**

antibody complex /Blocking of cell-mediated immunity to Moloney murine sarcoma virus-transformed cells by lactate dehydro- 70:493
antibody /Localization of human colorectal tumor xenografts in the nude mouse with the use of radiolabeled monoclonal 71:801
antibody reactivity and susceptibility to in vivo natural resistance /Murine natural antitumor antibodies. III. Interferon treat- 71:377
antibody to a chondroitin sulfate proteoglycan /Inhibition of anchorage-independent growth of human melanoma cells by a 71:259
anticancer drugs developed in the People's Republic of China /Cytotoxicity and sister chromatid exchanges induced in vitro by 71:841
Antiestrogenic action of 3-hydroxytamoxifen in the human breast cancer cell line MCF-7 . . . . . 71:55
antigen detected by a monoclonal antibody /A human breast tissue-associated 70:409
Antigenic heterogeneity of human lung cancers 70:427
Antigenic heterogeneity of skin tumors of nonmelanocyte origin: Analysis with monoclonal antibodies to tumor-associated anti- 71:439
antigen induced in cells infected or transformed by polyomavirus /Characterization of tumor-specific transplantation 70:283
antigen-induced T-cells: Ability to mediate antitumor immune response /Subsets of oncofetal 70:923
antigen in patients with metastatic breast carcinoma /Androgen stimulation of gross cystic disease fluid protein and carcino- 70:69
antigen isolated from spent medium of a human melanoma cell line /Immunochemical characterization of fetal 70:993
antigen on cultured malignant cell lines /Expression of heterophil Forssman 70:811
antigens and inflammatory cellular infiltrate in human breast cancer /Immunohistologic characterization of major histocompati- . . . 71:507
antigens and to histocompatibility antigens /Antigenic heterogeneity of skin tumors of nonmelanocyte origin: Analysis with 71:439
antigens encoded by the *H-2K* locus on Lewis lung carcinoma cells and its relevance to the tumor's metastatic properties /Loss 71:139
antigens: Generation of syngeneic antilymphoma killer lymphocytes by alloimmunization of mice with normal cells /Alloreactiv- 70:291
antigens in human colon carcinomas xenografted into nude mice /Differential expression of tumor-associated 71:117
antigens on the murine adenocarcinoma LT-85 /Identification of Ia 71:825
antigen (Tenagen) /Immunodiagnosis of colorectal cancer: Clinical evaluation of Tennessee 71:893
antilymphoma killer lymphocytes by alloimmunization of mice with normal cells /Alloreactivity and tumor antigens: Generation 70:291
antineoplastic agents /Hemodynamic effects of potentially useful 70:499
antiserum /Destruction of murine lymphoma cells by allogeneic peritoneal macrophages in vitro: Influence of 70:181
antitumor activity /Cytotoxic responses induced by peptidoglycans with or without in vivo 71:325
Antitumor activity of a water-insoluble compound entrapped in liposomes on L1210 leukemia in mice 70:1081
Antitumor activity of cell walls from *Brucella abortus* 71:529
antitumor antibodies. III. Interferon treatment of a natural killer-resistant lymphoma: Augmentation of natural antibody reactiv- 71:377
antitumor effect of a copper-containing synthetic superoxide dismutase in mice /Possible role of glutathione in the 71:1089
antitumor effect of indomethacin on autochthonous intestinal tumors in rats /Prolonged 70:1103
antitumor immune response /Subsets of oncofetal antigen-induced T-cells: Ability to mediate 70:923
Antiviral effects of amino acid derivatives with the fluorene substituent on murine leukemia viruses 70:275
A-particles in human tumors serially passaged in nude mice /Murine type C retroviruses and intracisternal 71:591
aqueous humor from patients with ocular cancers /Capillary endothelial cell migration: Stimulating activity of 71:501
aromatic amines /Effect of lithocholic acid on the mutagenicity of some substituted 71:293
aromatic amines /Organ, species, and compound specificity in the metabolic activation of primary 70:1077
aromatic hydrocarbons /Experimental studies in rat lungs on the carcinogenicity and dose-response relationships of eight fre- 71:539
aromatic hydrocarbons in four types of rats /Relationship of mammary tumor susceptibility, mammary cell-mediated muta- 70:777
Arsenic and respiratory cancer in humans: Follow-up of copper smelter employees in Montana 70:601
arsenic exposure /Implications of the multistage theory of carcinogenesis applied to occupational 70:455
artificial lung metastasis: Discrepant effect of whole-body irradiation in NFSA2ALM and NFSA1SLM tumor systems /Spontan- 71:835
asbestos workers /Sister chromatid exchange frequency in 70:45
ascites of mice /Separation on Percoll density gradients of cells derived from malignant 70:157
aspirin on gastric tumors induced by *N*-nitroso-*N*-methylnitroguanidine in rats /Cocarcinogenic action of 70:1067
athymic rats /T-cell lineage of a Friend virus-induced lymphatic leukemia in 71:1271
Atmospheric pressure effects on tumor growth: Hypobaric anoxia and growth of a murine transplantable tumor 70:739
Avian erythroblastosis virus isolated from chick erythroblastosis induced by lymphatic leukemia virus subgroup A 70:891

B16 melanoma /Differences in cytotoxic effects of activated murine peritoneal macrophages and J774 monocytic cells on meta- 70:717
bacteria and sheep erythrocyte–antibody–complement complexes for identification of complement receptors on lymphoid cell 71:897
BALB/c mice fed milk or beef protein: Differences in response to 1,2-dimethylhydrazine carcinogenesis 71:867
BALB/c mice /Immunomorphologic classification of spontaneous lymphoid cell neoplasms occurring in female 70:169
BALB/cBY mice /Major effect on susceptibility to urethan-induced pulmonary adenoma by a single gene in 70:931
BALB/cfC3H mice /Alterations of acquired mouse mammary tumor virus DNA during mammary tumorigenesis in 71:1011
Balb/3T3 cells and their relation to tumor formation /Heritable variations in growth potential and morphology within a clone of . . . 71:365
Balb/3T3 cells /Colony morphology and heritability of anchorage-independent growth among spontaneously transformed 70:1087
beauticians /Cancer and other causes of death among female 70:443

beef protein: Differences in response to 1,2-dimethylhydrazine carcinogenesis /BALB/c mice fed milk or 71:867
Benzo[*a*]pyrene- and aldrin-metabolizing activities in cultured human and rat hepatoma cell lines 71:281
benzo[*a*]pyrene in carcinogenesis /Fluorine substitution as a probe for the role of the 6-position of 71:309
beta blockers /In vitro and in vivo DNA damage of male and female rat liver nuclei by oncogenic and nononcogenic 70:747
betel nut extracts on endogenous nitrosation in humans /Inhibitory effect of 70:1047
biliary metabolites with dietary fibers /In vitro interaction of 7,12-dimethylbenz[*a*]anthracene and its 71:207

nasopharyngeal carcinoma /Epstein-Barr virus-related lymphocyte stimulation inhibitor: A possible prognostic tool for undif- 70:643
natural killer activity /Inhibitory cells in spleens of mice with low 71:571
natural killer activity within human ovarian tumors: Low numbers of morphologically defined effectors present in situ /Defec- 70:21
natural killer cell activity by chicken α-fetoprotein in Japanese quails /Suppression of 70:735
natural killer cell activity /Mechanism of glucocorticoid action on murine 71:973
natural killer cell cytotoxicity of cancer patients treated with recombinant interferon /Analysis of 71:903
Natural killer cells in relation to *Herpesvirus saimiri*-induced disease course and manifestations in owl monkeys 70:147
natural killer cells) /Meeting Highlights: Natural killing—present and future (Summary of workshop on 70:785
natural killer cells /3-Methylcholanthrene: Transient inhibition of the lytic step of mouse 71:385
natural killer-resistant lymphoma: Augmentation of natural antibody reactivity and susceptibility to in vivo natural resistance 71:377
Natural killing—present and future (Summary of workshop on natural killer cells) /Meeting Highlights: 70:785
neuroblastoma cells /Coordinate morphological and biochemical intercor ersion of human 71:741
neuroblastoma /Clonal evolution in a human 70:1051
NFSA2ALM and NFSA1SLM tumor systems /Spontaneous versus artificial lung metastasis: Discrepant effect of whole-body ir- 71:835
nickel-induced rhabdomyosarcoma and subsequent cloned cell lines in rats /Growth, metastasis, immunogenicity, and chromo- 71:1241
Nipple aspirate cytology for the study of breast cancer precursors 71:1115

nitrogen dioxide and by gavage to morpholine /In vivo formation of *N*-nitrosomorpholine in CD-1 mice exposed by inhalation 70:375
3-nitro-1,8-naphthalic acid (mitonafide) in Chinese hamster ovary cells /Induction of DNA strand breaks and chromosome ab- 70:1097
nitrosation in humans /Inhibitory effect of betel nut extracts on endogenous 70:1047
N-nitrosobis(2-oxopropyl)amine-induced nasal cavity tumors in rats by orchiectomy /Prevention of 70:353
N-nitrosobis(2-oxopropyl)amine in Syrian golden hamsters fed high-fat diets /Increased tumorigenesis induced by 70:1135
N-nitrosobis(2-oxopropyl)amine /Positive correlation between pancreatic DNA damage and species specificity in response to 71:523
N-nitrosobutylurea in castrated male WF rats /Induction of hepatic tumors by diethylstilbestrol alone or in synergism with 70:937
N-nitrosodimethylamine /Effects of polychlorinated biphenyls on lung and liver tumors initiated in suckling mice by 71:157
N-nitrosodimethylamine infusion /DNA alkylation and tumor induction in regenerating liver after cell cycle-related continuous 70:193
N-nitrosodimethylamine kidney tumorigenesis by unilateral hydronephrosis and multiple putrescine administration /Modulation ...71:787
nitrosodimethylamine reductive biotransformation, in rats /Metabolism and activation of 1,1-dimethylhydrazine and methyl- 71:1047
N-nitroso-*N*-methylnitroguanidine in rats /Cocarcinogenic action of aspirin on gastric tumors induced by 70:1067
N-nitroso-*N*-methylnitroguanidine in the glandular stomach in W rats /Promotion by histamine of carcinogenesis in the fore- 71:361
N-nitrosomethylpiperazine in the olfactory region of the rat nasal cavity /Pathogenesis of tumors induced with 71:165
N-nitrosomethyl-*n*-propylamine derivatives /Carcinogenesis in F344 rats by 70:959
N-nitroso-*N*-methylurea administration /Mammary carcinogenesis in rats in relation to age at time of 70:209
N-Nitroso-*N*-methylurea-induced mammary carcinogenesis: Effect of pregnancy on preneoplastic cells 71:625
N-Nitroso-*N*-methylurea-induced mammary tumors in the rat: Role of prolactin and a prolactin-lowering drug 70:105
N-nitrosomorpholine in CD-1 mice exposed by inhalation to nitrogen dioxide and by gavage to morpholine /In vivo formation 70:375
nonmetastatic to metastatic cells /Alterations in major histocompatibility complex phenotypes of mouse cloned T10 sarcoma 71:317
Nuclear aberrations as a short-term test for genotoxicity to the colon: Evaluation of nineteen agents in mice 71:133
nuclei by oncogenic and nononcogenic beta blockers /In vitro and in vivo DNA damage of male and female rat liver 70:747
nucleosides to disease status in childhood acute lymphoblastic leukemia /Relationship of urinary excretion of modified 71:269
nude mice /Chemotherapy of human yolk sac tumor heterotransplanted in 71:1221
nude mice /Differential expression of tumor-associated antigens in human colon carcinomas xenografted into 71:117
nude mice /Murine type C retroviruses and intracisternal A-particles in human tumors serially passaged in 71:591
nude mice /Tumorigenicity and other properties of cells from ten continuous human esophageal carcinoma cell lines in 70:89
Nude mouse model of the melanosis syndrome 71:933
nude mouse with the use of radiolabeled monoclonal antibody /Localization of human colorectal tumor xenografts in the 71:801
nut extracts on endogenous nitrosation in humans /Inhibitory effect of betel 70:1047
nutrition, and cancer: Interim dietary guidelines /Special Report: Diet, ...70:1151
Nutrition survey in a high-risk area /Diet and gastric cancer: 70:673
NZB mice that differ in chromosome breakage /Immunologic and enzymatic studies of two breeding lines of 70:299

tumor cell lines /Loss of heterozygosity in cultured human 70:83
tumor cells by autologous peripheral blood lymphocytes and pleural effusion lymphocytes activated by OK432 /Lysis of fresh 71:673
tumor cells /Extent of DNA methylation in human 71:755
tumor-forming ability of a stem cell line from a rat mammary tumor /Retinoid-specific induction of differentiation and reduc- 70:949
tumoricidal responses in dogs after extracorporeal perfusion of plasma over *Staphylococcus aureus* /Protein A-independent 70:1127
tumorigenesis by 1,2-dimethylhydrazine dihydrochloride /Enhancing effect of vitamin E on murine intestinal 70:1107
tumorigenesis by feeding high levels of dietary fat: A hormonal mechanism? /Guest Editorial: Enhancement of murine mammary ... 70:215
tumorigenesis by unilateral hydronephrosis and multiple putrescine administrations /Modulation of *N*-nitrosodimethylamine kid- ... 71:787
tumorigenesis in BALB/cfC3H mice /Alterations of acquired mouse mammary tumor virus DNA during mammary 71:1011
tumorigenesis induced by *N*-nitrosobis(2-oxopropyl)amine in Syrian golden hamsters fed high-fat diets /Increased 70:1135
tumorigenic human epithelial cells in culture /Fibrin clot retractile activity in normal, established, and 71:879
Tumorigenicity and other properties of cells from ten continuous human esophageal carcinoma cell lines in nude mice 70:89
tumorigenicity in somatic cell hybrids. II. Human chromosomes implicated as suppressors of tumorigenicity in hybrids with Chinese ... 71:559
tumorigenic phenotype in human cell hybrids /Complementation of the 70:667
tumor immunogenicity of DBA/2 mouse lymphoma L1210 and its sublines. III. Control of host resistance to drug-resistant L1210 .... 70:119
tumor induction in regenerating rat liver after cell cycle-related continuous *N*-nitrosodimethylamine infusion /DNA alkylation 70:193
tumor-infiltrating macrophages in human breast cancer: Differences in activation level as assessed by lysozyme content /Blood 71:941
tumor inoculation, and response to immunochemotherapy in a murine lymphoma model /Relationships among tumor load, ... 71:299
tumor progression in mouse skin papillomas /Simultaneous appearance of keratin modifications and γ-glutamyltransferase activ- ... 70:161
tumor promotion and the establishment of biological autarchy /Guest Editorial: Essential function deficiency as the result of 70:405
tumor registries and comprehensive cancer centers /Characteristics of colon cancer patients reported in population-based 70:629
tumor-specific transplantation antigen induced in cells infected or transformed by polyomavirus /Characterization of 70:283
tumor susceptibility in the rat /Body weight, dietary practices, and 71:1041
tumor types in a long-term carcinogenicity study with scheduled sacrifices /Simultaneous analysis of different 70:915
tumor virus expression and early mammary tumor development in the SHN mouse strain /A new locus (*Mtv-4*) for endogenous 71:517

twins /Cancer in mothers of dizygotic 70:593
type C retroviruses and intracisternal A-particles in human tumors serially passaged in nude mice /Murine 71:591

Ulex europaeus agglutinin-I in polyposis coli: Comparative study with solitary adenoma in the sigmoid colon and rectum /Binding ... 71:19
United States during 1900–80 /Cigarette smoking among successive birth cohorts of men and women in the 71:473
United States–Japan cooperative seminar on human hepatocarcinogenesis, January 20–22, 1983, in Honolulu, Hawaii /Meeting ... 71:1095
uranium miners: A reappraisal /Lung cancer mortality among U.S. 71:489
urea on HeLa cells in suspension cultures /Cytokinetic and cytotoxic effects of 71:1211
urethan-induced pulmonary adenoma by a single gene in BALB/cBY mice /Major effect on susceptibility to 70:931
Urinary excretion of β-aminoisobutyrate and pseudouridine in acute and chronic myeloid leukemia 71:887
urinary excretion of modified nucleosides to disease status in childhood acute lymphoblastic leukemia /Relationship of 71:269
urinary tract in Detroit /Occupation and cancer of the lower 70:237
Urine estrogens, frequency of ovulation, and breast cancer risk: Case–control study in premenopausal women 70:247
Uterine tumors in old female mice exposed prenatally to diethylstilbestrol 70:477

Vaccination against strontium–90-induced bone tumors 71:545
virus—a comparative study with rabbit myxoma virus /Immunohistology of malignant rabbit fibroma 71:105
virus-antibody complex /Blocking of cell-mediated immunity to Moloney murine sarcoma virus-transformed cells by lactate 70:493
virus-associated nasopharyngeal carcinoma /Cytomegalovirus isolations from cell cultures derived from Epstein-Barr 71:39
virus DNA during mammary tumorigenesis in BALB/cfC3H mice /Alterations of acquired mouse mammary tumor 71:1011
viruses /Antiviral effects of amino acid derivatives with the fluorene substituent on murine leukemia 70:275
viruses /Increased erythropoietin sensitivity after in vitro transformation of hematopoietic precursors by RNA tumor 70:725
virus expression and early mammary tumor development in the SHN mouse strain /A new locus (*Mtv-4*) for endogenous mam- 71:517
virus /Immunohistology of malignant rabbit fibroma virus—a comparative study with rabbit myxoma 71:105
virus-induced AKR leukemia: Studies with X-chromosome inactivation cellular mosaicism /Clonal nature of mink cell focus- 70:529
virus-induced disease in immunocompromised mice /Immunotherapy of murine leukemia. VIII. Efficacy of passive serum ther- 70:311
virus-induced lymphatic leukemia in athymic rats /T-cell lineage of a Friend 71:1271
virus-induced rabbit tumor /Malignant rabbit fibroma virus: Observations on the culture and histopathologic characteristics of 71:91
virus-infected lymphocytes: Discrimination between cytolytically and latently infected cells /Characterization of Marek's disease 70:485
virus in normal and adenocarcinomatous prostate glands /Human cytomegalovirus and herpes simplex type 2 ..... 70:819
virus isolated from chick erythroblastosis induced by lymphatic leukemia virus subgroup A /Avian erythroblastosis 70:891
virus leukemia development in mice /Inhibition by tuftsin of Rauscher 71:87
virus: Observations on the culture and histopathologic characteristics of a new virus-induced rabbit tumor /Malignant rabbit fi- 71:91
virus /Pool size of pluripotential hematopoietic stem cells increased in continuous bone marrow culture by Friend spleen focus- 70:323
virus /Proliferative responses of mouse mammary glands to 17β-estradiol and progesterone and modification by mouse mam- 71:1265
virus-related lymphocyte stimulation inhibitor: A possible prognostic tool for undifferentiated nasopharyngeal carcinoma /Ep- 70:643
virus-specific RNA in herpes simples virus type 1-transformed hamster cell lines /Detection of 71:397
virus subgroup A /Avian erythroblastosis virus isolated from chick erythroblastosis induced by lymphatic leukemia 70:891
virus-transformed cells by lactate dehydrogenase virus–antibody complex /Blocking of cell-mediated immunity to Moloney mur- ... 70:493
vitamin A /Regression of C3HBA mouse tumor due to X-ray therapy combined with supplemental β-carotene or 71:409
vitamin E on murine intestinal tumorigenesis by 1,2-dimethylhydrazine dihydrochloride /Enhancing effect of 70:1107

W rats /Carcinogenicity of cadmium chloride aerosols in 70:367
W rats /Promotion by histamine of carcinogenesis in the forestomach and protection by histamine against carcinogenesis in- 71:361
water-insoluble compound entrapped in liposomes on L1210 leukemia in mice /Antitumor activity of a 70:1081
weight and growth to risk of anterior pituitary gland tumors of the rat /Contribution of body 70:1119
weight, dietary practices, and tumor susceptibility in the rat /Body 71:1041
weight-losing, tumor-bearing mice /Lack of evidence for elevated breakdown rate of skeletal muscles in 71:341
WF rats /Induction of hepatic tumors by diethylstilbestrol alone or in synergism with *N*-nitrosobutylurea in castrated male 70:937
WF rats /Serial circulating immune complex levels and mitogen responses during progressive tumor growth in 70:1113
whole-body irradiation in NFSA2ALM and NFSA1SLM tumor systems /Spontaneous versus artificial lung metastasis: Discrep- 71:835
Wilms' tumor in childhood /Second neoplasms after 71:1205
Wistar rats /Possible site of zinc control of hepatoma cell division in 70:333
women /Distribution of 17β-estradiol in the sera of normal British and Japanese 71:749
women in relation to reproductive and hormonal factors: A case–control study /Large bowel cancer in 71:703
women in the United States during 1900–80 /Cigarette smoking among successive birth cohorts of men and 71:473

women /Urine estrogens, frequency of ovulation, and breast cancer risk: Case–control study in premenopausal 70:247
women without breast disease /Retrospective assessment of menstrual cycle length in patients with breast cancer, in patients with . . . 70:17
World Health Organization's classifications of lung tumors /Surveillance, Epidemiology, and End Results lung cancer data ap- 70:663

X-chromosome inactivation cellular mosaicism /Clonal nature of mink cell focus-inducing virus-induced AKR leukemia: Studies 70:529
xenografts in the nude mouse with the use of radiolabeled monoclonal antibody /Localization of human colorectal tumor 71:801
X/Gf mouse /In vitro induction of malignant transformation and in vivo resistance to tumor growth in the 71:217
Xiphophorus (Poeciliidae): Linkage of loci for malate dehydrogenase-2 and esterase-1 and esterase-4 with a gene controlling the sever- . . . 71:809
X-rays on EMT6 mouse mammary tumors in vivo /Effects of mitomycin C alone and in combination with 71:765
X-ray therapy combined with supplemental β-carotene or vitamin A /Regression of C3HBA mouse tumor due to 71:409

yolk sac tumor heterotransplanted in nude mice /Chemotherapy of human 71:1221

zinc control of hepatoma cell division in Wistar rats /Possible site of 70:333

Table of Contents

Volumes 70–71
January–December 1983

Vol 70, No. 1—JANUARY 1983

Letters to the Editor

1 Periodic breast cancer screening with single oblique-view mammography — *J. J. Rombach*

1 Reply — *Bengt Lundgren, Anders Helleberg*

Guest Editorial

3 Relative difficulties in transforming human and animal cells in vitro — *Joseph A. DiPaolo*

Investigations on Man

9 A stem cell model of human tumor growth: Implications for tumor cell clonogenic assays — *W. J. Mackillop, A. Ciampi, J. E. Till, R. N. Buick*

17 Retrospective assessment of menstrual cycle length in patients with breast cancer, in patients with benign breast disease, and in women without breast disease — *Håkan Olsson, Mona Landin-Olsson, Bo Gullberg*

21 Defective natural killer activity within human ovarian tumors: Low numbers of morphologically defined effectors present in situ — *Martino Introna, Paola Allavena, Andrea Biondi, Nicoletta Colombo, Antonello Villa, Alberto Mantovani*

27 Parity as a prognostic factor in young breast cancer patients — *Maurice M. Black, Benjamin F. Hankey, Thomas H. C. Barclay*

31 Survey of thorotrast-associated liver cancers in Japan — *Seiji Yamada, Syun Hosoda, Hiroo Tateno, Choichiro Kido, Shinji Takahashi*

37 A follow-up study of a ten-percent sample of the Canadian labor force. I. Cancer mortality in males, 1965–73 — *Geoffrey R. Howe, Joan P. Lindsay*

45 Sister chromatid exchange frequency in asbestos workers — *William N. Rom, Gordon K. Livingston, Kenneth R. Casey, Stephen D. Wood, Marlene J. Egger, Grace L. Chiu, Leslie Jerominski*

49 Incidence of childhood cancer: Experience of a decade in a population-based registry — *Shira Kramer, Anna T. Meadows, Patricia Jarrett, Audrey E. Evans*

57 D-Glucosamine-induced increase of glycerol-containing lipids in growing cultures of human malignant epithelial cells — *Eva Krug, Elisabeth Dussaulx, Raymond Rozen, Sabine Griglio, Pierre de Gasquet, Alain Zweibaum*

63 Breast cancer following iodine-131 therapy for hyperthyroidism — *Daniel A. Hoffman, William M. McConahey*

69 Androgen stimulation of gross cystic disease fluid protein and carcinoembryonic antigen in patients with metastatic breast carcinoma — *William G. Dilley, George S. Leight, Jr., John S. Silva, Sheree Ammirata, Darrow E. Haagensen, Samuel A. Wells, Jr.*

75 Mortality from brain tumor and other causes in a cohort of petrochemical workers — *Richard J. Waxweiler, Victor Alexander, Sanford S. Leffingwell, Marie Haring, J. William Lloyd*

83 Loss of heterozygosity in cultured human tumor cell lines — *Nicholas C. Dracopoli, Jørgen Fogh*

89 Tumorigenicity and other properties of cells from ten continuous human esophageal carcinoma cell lines in nude mice — *Kathy M. Robinson, Lalitha Maistry*

95 Routine growth and differentiation of primary retinoblastoma cells in culture — *Emil Bogenmann, Corey Mark*

Investigations on Nonhuman Systems

105	*N*-Nitroso-*N*-methylurea-induced mammary tumors in the rat: Role of prolactin and a prolactin-lowering drug	*Philippe Gandilhon, Réjean Mélançon, Jean Djiane, Paul A. Kelly*
111	DNA adduct formation by 7,12-dimethylbenz[*a*]anthracene and its noncarcinogenic 2-fluoroanalogue in female Sprague-Dawley rats	*F. B. Daniel, N. J. Joyce*
119	Differential tumor immunogenicity of DBA/2 mouse lymphoma L1210 and its sublines. III. Control of host resistance to drug-resistant L1210 sublines by *H-2*-linked and non-*H-2*-linked genes	*Hiroshi Fugi, Masatake Murakami*
127	Experimental induction of parathyroid adenomas in the rat	*Valerie Wynford-Thomas, David Wynford-Thomas, E. Dillwyn Williams*
135	Removal of aflatoxin B_1–DNA adducts and in vitro transformation in mouse embryo fibroblasts C3H/10T½	*Paul A. Amstad, Tzu-chien V. Wang, Peter A. Cerutti*
141	Modifying factors in pancreatic carcinogenesis in the hamster model. I. Effect of protein-free diet fed during the early stages of carcinogenesis	*Parviz M. Pour, Diane F. Birt, Shahrokh Z. Salmasi, Ulrich Götz*
147	Natural killer cells in relation to *Herpesvirus saimiri*-induced disease course and manifestations in owl monkeys	*Kenneth A. Bertram, Gary R. Pearson*
157	Separation on Percoll density gradients of cells derived from malignant ascites of mice	*Anne W. Hamburger, Frances E. Dunn, Kathleen L. Tencer*
161	Simultaneous appearance of keratin modifications and γ-glutamyltransferase activity as indicators of tumor progression in mouse skin papillomas	*Andres J. P. Klein-Szanto, Karen G. Nelson, Yatish Shah, Thomas J. Slaga*
169	Immunomorphologic classification of spontaneous lymphoid cell neoplasms occurring in female BALB/c mice	*Paul K. Pattengale, Charles H. Frith*
181	Destruction of murine lymphoma cells by allogeneic peritoneal macrophages in vitro: Influence of antiserum	*Koert P. Dingemans, Elisabeth Pels, Guus van Dongen, Willem den Otter*
193	DNA alkylation and tumor induction in regenerating rat liver after cell cycle-related continuous *N*-nitrosodimethylamine infusion	*Hartmut M. Rabes, Rosi Kerler, Roland Wilhelm*
199	Spontaneous tumors of the prostate gland in inbred strains of mice	*Charity Waymouth, Dale R. Coman, Patricia F. Ward-Bailey*
209	Mammary carcinogenesis in rats in relation to age at time of *N*-nitroso-*N*-methylurea administration	*Clinton J. Grubbs, John C. Peckham, Karen D. Cato*

Announcements

213	International Lung Cancer Update Conference
213	NIH Consensus Development Conference on Critical Care Medicine
213	Third Annual Symposium on Current Approaches to Radiation Oncology, Radio-Biology, and Clinical Physics
213	Eighth International Symposium of the Fundación Argentina de Endocrinolgía (FAE)
213	Conference on Predictive Drug Testing on Human Tumor Cells

Vol 70, No. 2—FEBRUARY 1983

Guest Editorial

215 Enhancement of murine mammary tumorigenesis by feeding high levels of dietary fat: A hormonal mechanism? *Clifford W. Welsch, Charles F. Aylsworth*

Investigations on Man

223 Suppressor cells and survival of patients with advanced gastric cancer *Marek Zembala, Bożena Mytar, Irena Ruggiero, Wojciech Uracz, Tadeusz Popiela, Antoni Czupryna*

229 Alterations of glycolipids of human leukemia cell line HL-60 during differentiation *Takashi Momoi, Jun Yokota*

237 Occupation and cancer of the lower urinary tract in Detroit *Debra T. Silverman, Robert N. Hoover, Samuel Albert, Kathleen M. Graff*

247 Urine estrogens, frequency of ovulation, and breast cancer risk: Case–control study in premenopausal women *Brian MacMahon, Philip Cole, James B. Brown, Ralph Paffenbarger, Dimitrios Trichopoulos, Stella Yen*

251 Oral cancer and mouthwash *William J. Blot, Deborah M. Winn, Joseph F. Fraumeni, Jr.*

255 Oral cancer and mouthwash use *Ernst L. Wynder, Geoffrey Kabat, Saul Rosenberg, Marcia Levenstein*

Investigations on Nonhuman Systems

261 Transplantation immunity and cross-protection of two cultured murine colon lines *Noriyuki Sato, Maria C. Michaelides, Marc K. Wallack*

267 Naturally occurring cell-mediated cytotoxicity against simian virus 40-transformed 3T3 murine tumor cells *Melissa C. Kanar, Alan Winkelstein, David Platt*

275 Antiviral effects of amino acid derivatives with the fluorene substituent on murine leukemia viruses *Haruhisa Fujita, Shigeshi Toyoshima*

279 Differential susceptibility of AKR, C57BL/6J, and CF1 mice to 1,2-dimethylhydrazine-induced colonic tumor formation predicted by proliferative characteristics of colonic epithelial cells *Eleanor E. Deschner, Florence C. Long, Mary Hakissian, Susan L. Herrmann*

283 Characterization of tumor-specific transplantation antigen induced in cells infected or transformed by polyomavirus *Yves Barra, Yoshiaki Ito, Danièle Depétris, Georges Meyer*

291 Alloreactivity and tumor antigens: Generation of syngeneic antilymphoma killer lymphocytes by alloimmunization of mice with normal cells *M. Luisa Sensi, Mariella Parenza, Giorgio Parmiani*

299 Immunologic and enzymatic studies of two breeding lines of NZB mice that differ in chromosome breakage *Hedi Haddada, Nicole Munsch, Christiane de Vaux Saint Cyr, Ingrid Emerit*

305 Bovine ocular squamous cell carcinoma: Tumor-associated immunity detected by E-rosette augmentation test *Vijay K. Kuchroo, Phillip A. Jennings, Peter B. Spradbrow*

311 Immunotherapy of murine leukemia. VIII. Efficacy of passive serum therapy of Friend leukemia virus-induced disease in immunocompromised mice *Eugene V. Genovesi, Daniella Livnat, Jeffrey J. Collins*

323 Pool size of pluripotential hematopoietic stem cells increased in continuous bone marrow culture by Friend spleen focus-forming virus *Joel S. Greenberger, Nancy Hoffman, Miriam Lieberman, Leslie E. Botnick, Mary Ann Sakakeeny, Robert J. Eckner*

333 Possible site of zinc control of hepatoma cell division in Wistar rats *Gregory W. Baker, John R. Duncan*

337 Immunohistochemical localization of catechol methyltransferase in normal and cancerous breast tissues of mice and rats — *Afaf M. Amin, Cyrus R. Creveling, Michael C. Lowe*

343 Carcinogenicity of butylated hydroxyanisole in F344 rats — *Nobuyuki Ito, Shoji Fukushima, Akihiro Hagiwara, Michiko Shibata, Tadashi Ogiso*

353 Prevention of *N*-nitrosobis(2-oxopropyl)amine-induced nasal cavity tumors in rats by orchiectomy — *Parviz M. Pour, Ulrich Götz*

359 Changes in γ-glutamyltransferase activity during *N*-2-fluorenylacetamide-induced rat hepatocarcinogenesis — *Eli R. Capouya, Ronald Lindahl*

367 Carcinogenicity of cadmium chloride aerosols in W rats — *Shinji Takenaka, Hubert Oldiges, Hans König, Dieter Hochrainer, Günter Oberdörster*

375 In vivo formation of *N*-nitrosomorpholine in CD-1 mice exposed by inhalation to nitrogen dioxide and by gavage to morpholine — *Ethard W. Van Stee, Richard A. Sloane, Jane Ellen Simmons, Klaus D. Brunnemann*

381 Neoplasia and chronic disease associated with the prolonged administration of dehydroheliotridine to rats — *John E. Peterson, Marjorie V. Jago, Janardan K. Reddy, Richard G. Jarrett*

Announcements

387 NCI Monographs Available

387 Availability of PHS-149 Reports Entitled "Survey of Compounds Which Have Been Tested for Carcinogenicity Activity"

387 National Safety Council Courses

387 Frances and Anthony D'Anna International Memorial Symposium

387 American Cancer Society National Conference—Breast Cancer–1983

388 Harvard Medical School Continuing Education Program

388 Eighth Annual Meeting of the Association of Cytogenetic Technologists

388 International Symposium on Cellular and Molecular Biology of Neoplasia

Vol 70, No. 3—MARCH 1983

Guest Editorials

389 Environmental etiology of large-bowel cancer — *David G. Zaridze*

401 Follicular lymphomas: Possibility that they are benign tumors of the lymphoid system — *Elaine S. Jaffe*

405 Essential function deficiency as the result of tumor promotion and the establishment of biological autarchy — *Luigi M. De Luca*

Investigations on Man

409 A human breast tissue-associated antigen detected by a monoclonal antibody — *Christopher H. Thompson, Stephen L. Jones, Robert H. Whitehead, Ian F. C. McKenzie*

421	Smoking, occupation, and histopathology of lung cancer: A case–control study with the use of the Third National Cancer Survey	*Leslie T. Stayner, David H. Wegman*
427	Antigenic heterogeneity of human lung cancers	*A. Harłozińska, R. Richter, Z. Albert, H. Zawadzka*
435	Binding of phorbol dibutyrate and epidermal growth factor to cultured human epidermal cells	*Ellen Greenebaum, Maria Nicolaides, Magdalena Eisinger, Ruth H. Vogel, I. Bernard Weinstein*
443	Cancer and other causes of death among female beauticians	*Suminori Kono, Shinkan Tokudome, Masato Ikeda, Takesumi Yoshimura, Masanori Kuratsune*
447	Establishment of a Ph^1-positive human cell line (BV173)	*Luigi Pegoraro, Lina Matera, Jerome Ritz, Alessandro Levis, Antonio Palumbo, Graziella Biagini*
455	Implications of the multistage theory of carcinogenesis applied to occupational arsenic exposure	*Charles C. Brown, Kenneth C. Chu*
465	Induction of delayed hypersensitivity reactions in cancer patients by cholesterol–hemisuccinate-treated autologous tumor cells	*Yehuda Shornick, Arthur R. Dresdale, William F. Sindelar*
469	Polymorphic enzyme analysis of cultured human tumor cell lines	*Nicholas C. Dracopoli, Jørgen Fogh*

Investigations on Nonhuman Systems

477	Uterine tumors in old female mice exposed prenatally to diethylstilbestrol	*Bruce E. Walker*
485	Characterization of Marek's disease virus-infected lymphocytes: Discrimination between cytolytically and latently infected cells	*William R. Shek, Bruce W. Calnek, Karel A. Schat, Chen-Lo H. Chen*
493	Blocking of cell-mediated immunity to Moloney murine sarcoma virus-transformed cells by lactate dehydrogenase virus–antibody complex	*Thomas L. McDonald*
499	Hemodynamic effects of potentially useful antineoplastic agents	*Ellen N. Spremulli, Frank J. Cummings, Gerald W. Crabtree, Kenneth LaBresh, Mark Jordan, Paul Calabresi*
505	Cytotoxicity of methylglyoxal bis(guanylhydrazone) in combination with α-difluoromethylornithine against HeLa cells and mouse L1210 leukemia	*Prasad S. Sunkara, Nellikunja J. Prakash, Chin C. Chang, Albert Sjoerdsma*
511	Long-term cyclophosphamide treatments against primary mammary tumors in C3H/He mice	*Mary E. Costanza, Jan Vaage*
517	Sister chromatid exchanges and chromosome aberrations induced by radiosensitizing agents in bone marrow cells of treated tumor-bearing mice	*Ranjit Banerjee, Anna Goldfeder, Jyotirmay Mitra*
523	Incidence of chromatoblastomas in aging goldfish (*Carassius auratus*)	*Hisami Etoh, Yasuko Hyodo-Taguchi, Kazuko Aoki, Motoi Murata, Hiromichi Matsudaira*
529	Clonal nature of mink cell focus-inducing virus-induced AKR leukemia: Studies with X-chromosome inactivation cellular mosaicism	*Steven J. Collins, Philip J. Fialkow*
535	Doxorubicin-induced ultrastructural and growth changes in primary cultures of 7,12-dimethylbenz[*a*]anthracene-induced mammary tumors	*Ahmad R. Safa, Michael T. Tseng*
541	Methylated DNA adducts in the large intestine of ICR/Ha and C57BL/Ha mice given 1,2-dimethylhydrazine	*John T. James, Herman Autrup*
547	Dietary protein intervention during the postdosing phase of aflatoxin B_1-induced hepatic preneoplastic lesion development	*B. Scott Appleton, T. Colin Campbell*

551 Tissue factor activity of normal and neoplastic cells: Quantitation and species specificity — *Julian L. Kadish, Karen M. Wenc, Harold F. Dvorak*

559 Membrane lipids of hepatic tissue. I. Neutral lipids from subcellular fractions of liver and hepatoma 7288CTC — *Girish C. Upreti, Roberto J. deAntueno, Randall Wood*

567 Membrane lipids of hepatic tissue. II. Phospholipids from subcellular fractions of liver and hepatoma 7288CTC — *Girish C. Upreti, Roberto J. deAntueno, Randall Wood*

575 Improved efficiency of hybridoma ascites production by intrasplenic inoculation in mice — *Pamela L. Witte, Rosalie Ber*

Announcements

579 Third Advanced Cardiovascular Nuclear Medicine Workshop

579 NASCR Postgraduate Course for 1983

579 International Symposium on Tissue Repair

579 Vitamins, Nutrition, and Cancer Symposium

579 Histopathology Seminar

579 Gynecologic Laser Surgery Course

579 International Symposium on Acute Leukemia

580 Fourth NCI–EORTC Symposium

Vol 70, No. 4—APRIL 1983

Investigations on Man

581 Postsurgical follow-up of colorectal cancer patients monitored by the leukocyte migration test — *Margot Zöller, Uwe Schulz, Wolfgang Dietze, Horst Wesch, Siegfried Matzku*

589 Incidence of childhood tumors in Shanghai, 1973–77 — *Ji-tao Tu, Frederick P. Li*

593 Cancer in mothers of dizygotic twins — *Grace Wyshak, Merton S. Honeyman, John T. Flannery, Alice S. Beck*

601 Arsenic and respiratory cancer in humans: Follow-up of copper smelter employees in Montana — *Anna Lee-Feldstein*

611 Relationship of cigarette smoking and radiation exposure to cancer mortality in Hiroshima and Nagasaki — *Ross L. Prentice, Y. Yoshimoto, Mark W. Mason*

623 Cell-destructive activity in the serum of a tumor patient after infusion of alkyl lysophospholipid — *Reinhard Andreesen, Paul G. Munder*

629 Characteristics of colon cancer patients reported in population-based tumor registries and comprehensive cancer centers — *Sandra C. Steinhorn, Kenneth J. Kopecky, Max H. Myers, Charles Ball*

635 Trends in cancer incidence in Cali, Colombia — *Carlos Cuello, Pelayo Correa, William Haenszel*

643 Epstein-Barr virus-related lymphocyte stimulation inhibitor: A possible prognostic tool for undifferentiated nasopharyngeal carcinoma — *Lakshmi S. Kamaraju, Paul H. Levine, Syam K. Sundar, Dharam V. Ablashi, Alberto Faggioni, Gary R. Armstrong, G. Bertram, Gerhard R. F. Krueger*

649 A new human breast carcinoma cell line (PMC42) with stem cell characteristics. I. Morphologic characterization — *Robert H. Whitehead, Ivan Bertoncello, Lorna M. Webber, John S. Pedersen*

663 Surveillance, Epidemiology, and End Results lung cancer data applied to the World Health Organization's classifications of lung tumors — *Constance Percy, Leslie Sobin*

667 Complementation of the tumorigenic phenotype in human cell hybrids — *Bernard E. Weissman, Eric J. Stanbridge*

673 Diet and gastric cancer: Nutrition survey in a high-risk area — *Pelayo Correa, Carlos Cuello, Luis F. Fajardo, William Haenszel, Oscar Bolaños, Beatriz de Ramírez*

679 Human blood group isoantigen expression on normal and malignant gastric epithelium studied with anti-A and anti-B monoclonal antibodies — *Paul J. Finan, Derek G. D. Wight, Edwin S. Lennox, Stephen H. Sacks, Norman M. Bleehen*

687 Diet in the epidemiology of carcinoma of the prostate gland — *Saxon Graham, Brenda Haughey, James Marshall, Roger Priore, Tim Byers, Thomas Rzepka, Curtis Mettlin, J. Edson Pontes*

693 Cancer patient survival: Surveillance, Epidemiology, and End Results Program, 1973–79 — *Lynn Gloeckler Ries, Earl S. Pollack, John L. Young, Jr.*

Investigations on Nonhuman Systems

709 Prognostic factors in feline mammary carcinoma — *K. Weijer, A. A. M. Hart*

717 Differences in cytotoxic effects of activated murine peritoneal macrophages and J774 monocytic cells on metastatic variants of B16 melanoma — *Karen M. Miner, Jim Klostergaard, Gale A. Granger, Garth L. Nicolson*

725 Increased erythropoietin sensitivity after in vitro transformation of hematopoietic precursors by RNA tumor viruses — *W. David Hankins*

735 Suppression of natural killer cell activity by chicken α-fetoprotein in Japanese quails — *Akio Yamada, Masanori Hayami*

739 Atmospheric pressure effects on tumor growth: Hypobaric anoxia and growth of a murine transplantable tumor — *Betty L. Herndon, James J. Lally, Miles Hacker*

747 In vitro and in vivo DNA damage of male and female rat liver nuclei by oncogenic and nononcogenic beta blockers — *Marco Presta, Cecilia Mazzocchi, Silvia Ziliani, Giovanni Ragnotti*

753 Efficacy of chemotherapeutic treatment of guinea pig hepatoma reflected in host's serum lipid composition — *Seymour I. Schlager*

757 In vitro binding of the food mutagen 2-amino-3-methylimidazo[4,5-*f*]quinoline to dietary fibers — *William S. Barnes, Janet Maiello, John H. Weisburger*

761 Basic lead acetate: Promoting effect on the development of renal tubular cell tumors in rats treated with *N*-ethyl-*N*-hydroxyethylnitrosamine — *Yoshio Hiasa, Masato Ohshima, Yoshiteru Kitahori, Toyohisa Fujita, Takashi Yuasa, Akira Miyashiro*

767 Increased mutagenicity of chloroethylnitrosoureas in the presence of a rat liver S9 microsome mixture — *William J. Suling, Louise S. Rice, William M. Shannon*

771 Immunoprophylaxis of an ocular solid malignant tumor in cattle — *Stephen J. Kleinschuster, Herbert J. Rapp, Jurgen Bier, Charles C. Muscoplat, Ross A. Smart, Kent R. Van Kampen*

777 Relationship of mammary tumor susceptibility, mammary cell-mediated mutagenesis, and metabolism of polycyclic aromatic hydrocarbons in four types of rats — *Cynthia J. Moore, Andrew J. Bachhuber, Michael N. Gould*

Meeting Highlights

785 Natural killing—present and future (summary of workshop on natural killer cells) — *Hillel S. Koren, Ronald B. Herberman*

Announcements

787 UICC Advanced Course on Clinical Cancer Chemotherapy

787 Cancerology, Immunogenetic, and Pharmacology Week

787 Gordon Research Conference

787 Fifth International Bioanalytical Forum

787 American College of Epidemiology Meeting

787 Cincinnati Cancer Conference

787 Fourth Conference on Human Tumor Cloning

Vol 70, No. 5—MAY 1983

Guest Editorial

789 Biological response modifiers — *Robert K. Oldham*

Investigations on Man

797 A retrospective cohort analysis of second breast cancer risk for primary breast cancer patients with an assessment of the effect of radiation therapy — *Benjamin F. Hankey, Rochelle E. Curtis, M. Darlene Naughton, John D. Boice, Jr., John T. Flannery*

805 Actin changes in normal human and rat leukocytes and in transformed human leukocytic cells — *James Varani, John A. Wass, K. Murali Krishna Rao*

811 Expression of heterophil Forssman antigen on cultured malignant cell lines — *Tsuneatsu Mori, Tadashi Sudo, Kyoichi Kano*

819 Human cytomegalovirus and herpes simplex type 2 virus in normal and adenocarcinomatous prostate glands — *Istvan Boldogh, John F. Baskar, Eng-Chun Mar, Eng-Shang Huang*

827 Cutaneous melanoma in relation to exogenous hormones and reproductive factors — *Elizabeth A. Holly, Noel S. Weiss, Jonathan M. Liff*

833 Human interferon action: Reciprocal regulation by retinoic acid and β-carotene — *John Rhodes*

839 Cell lines derived from human ovarian carcinomas: Growth stimulation by gonadotropic and steroid hormones — *Wolfgang E. Simon, Michael Albrecht, Marianne Hänsel, Manfred Dietel, Fritz Hölzel*

847 Diet and smoking in the epidemiology of cancer of the cervix — *James R. Marshall, Saxon Graham, Tim Byers, Mya Swanson, John Brasure*

853 Approaches to enhance proliferation of human epidermal keratinocytes in mass culture — *Floyd M. Price, William G. Taylor, Richard F. Camalier, Katherine K. Sanford*

863 Risk factors for meningiomas in men in Los Angeles County — *Susan Preston-Martin, Mimi C. Yu, Brian E. Henderson, Catherine Roberts*

867 Reduced capacity for DNA repair synthesis in patients with or genetically predisposed to colorectal cancer — *Ronald W. Pero, Daniel G. Miller, Martin Lipkin, Melvin Markowitz, Sudhir Gupta, Sidney J. Winawer, Warren Enker, Robert Good*

Investigations on Nonhuman Systems

877 Effect of hyperthermia on epithelial microneoplastic cell populations induced by irradiation of rat skin — *N. J. Gragtmans, J. F. McGregor*

881	Systemic tolerance of osmotically induced oncolysis in rats	*Robert H. Orvoine, Guy Letellier, Yves Lapointe*
891	Avian erythroblastosis virus isolated from chick erythroblastosis induced by lymphatic leukemia virus subgroup A	*Hiroshi Hihara, Haruya Yamamoto, Hidemaru Shimohira, Keigo Arai, Takehiko Shimizu*
899	Platinum-amine compounds: Importance of the labile and inert ligands for their pharmacological activities toward L1210 leukemia cells	*Jean-Pierre Macquet, Jean-Luc Butour*
907	In vivo selection of androgen-insensitive cells in R3327-G rat prostate tumors: Diethylstilbestrol diphosphate treatment versus orchiectomy	*Alan Pollack, Norman L. Block, Betty J. Stover, George L. Irvin III, Mercedes P. Fuentes, Alice J. Claflin, Theodore I. Malinin*
915	Simultaneous analysis of different tumor types in a long-term carcinogenicity study with scheduled sacrifices	*Jürgen Wahrendorf*
923	Subsets of oncofetal antigen-induced T-cells: Ability to mediate antitumor immune response	*Savita Gautam, Sharad D. Deodhar*
931	Major effect on susceptibility to urethan-induced pulmonary adenoma by a single gene in BALB/cBY mice	*Alvin M. Malkinson, Deborah S. Beer*
937	Induction of hepatic tumors by diethylstilbestrol alone or in synergism with *N*-nitrosobutylurea in castrated male WF rats	*Chiyo Sumi, Kenjiro Yokoro, Ryotaro Matsushima*
943	Analysis of lectin receptors on rat embryo fibroblasts transformed by adenovirus 2	*David H. Boldt, Stephen G. Zimmer*
949	Retinoid-specific induction of differentiation and reduction of the DNA synthesis rate and tumor-forming ability of a stem cell line from a rat mammary tumor	*Philip S. Rudland, Frieda C. Paterson, Anna C. Twiston Davies, Michael J. Warburton*
959	Carcinogenesis in F344 rats by *N*-nitrosomethyl-*n*-propylamine derivatives	*W. Lijinsky, M. D. Reuber, J. E. Saavedra, G. M. Singer*
965	Dimethyl sulfoxide-induced transglutaminase activity in murine-derived Friend erythroleukemia cells	*Kuo-Hom Lee Hsu, Herman Friedman*
971	Comparison of age- and sex-specific incidence rate patterns of the leukemia complex in the cat and the dog	*Robert Schneider*

Meeting Highlights

979	Conference and workshop on cancer epidemiology in Latin America. Opportunities for collaborative research	*Donald E. Henson*

Corrections

987	June 1981, Vol 66, No. 6, page 1197: The Causes of Cancer: Quantitative Estimates of Avoidable Risks of Cancer in the United States Today	*Richard Doll, Richard Peto*

Announcements

987	New Educational Institution—The European School of Oncology
987	Design and Analysis of Scientific Experiments Course
987	Eighth European Symposium on Hormones and Cell Regulation

987 Fourth International Congress of Dermatologic Surgery

987 Third International Symposium on Medical Virology

987 Second International Conference on Safety Evaluation and Regulation of Chemicals

988 Fifth World Congress of Cryosurgery

988 Fourth International Congress on the Adjuvant Therapy of Cancer

988 Second International Conference on Malignant Lymphoma

988 Fourth Annual Symposium on Diagnostic Imaging

988 Safety Management Techniques Course

988 Second International Congress of the T. and L. de Beaumont Bonelli Foundation for Cancer Research

988 American College of Physicians Medical Oncology Review Course

988 Second International Conference on Human Tumor Markers

Vol 70, No. 6—JUNE 1983

Letters to the Editor

991 Cells of origin of lung tumors in mice — *Hanspeter Witschi, Wanda M. Haschek*

991 Reply — *Ellen J. O'Flaherty, Michael L. Dourson*

Investigations on Man

993 Immunochemical characterization of fetal antigen isolated from spent medium of a human melanoma cell line — *Rishab K. Gupta, Donald L. Morton*

1005 Spontaneous tumor cell killing by human blood monocytes and human peritoneal macrophages: Lack of alteration by endotoxin or quenchers of reactive oxygen species — *J. Brice Weinberg, Arthur F. Haney*

1011 Cancer risk among Danish male Seventh-Day Adventists and other temperance society members — *Ole Møller Jensen*

1015 Cancer mortality (1965–77) in relation to diesel fume and coal exposure in a cohort of retired railway workers — *Geoffrey R. Howe, Drora Fraser, Joan Lindsay, Bryn Presnal, Shun Zhang Yu*

1021 Coffee drinking and risk of bladder cancer — *Patricia Hartge, Robert Hoover, Dee W. West, Joseph L. Lyon*

1027 Differences in breast cancer risk factors according to the estrogen receptor level of the tumor — *Nancy G. Hildreth, Jennifer L. Kelsey, Arnold J. Eisenfeld, Virginia A. LiVolsi, Theodore R. Holford, Diana B. Fischer*

1033 Dark tobacco and lung cancer in Cuba — *Olga G. Joly, Jay H. Lubin, Magaly Caraballoso*

1041 Clinical study of recombinant DNA-produced leukocyte interferon (clone A) in an intermittent schedule in cancer patients — *Jorge R. Quesada, Jordan U. Gutterman*

1047 Inhibitory effect of betel nut extracts on endogenous nitrosation in humans — *Hans F. Stich, Hiroshi Ohshima, Brigitte Pignatelli, Jocelyne Michelon, Helmut Bartsch*

1051 Clonal evolution in a human neuroblastoma — *Madelyn Kleiner Feder, Fred Gilbert*

Investigations on Nonhuman Systems

1057	R3327 prostate adenocarcinoma clonogenic cells: Epithelial properties and hormone response	*Julia J. Dibner, Alexander Nakeff*
1067	Cocarcinogenic action of aspirin on gastric tumors induced by *N*-nitroso-*N*-methylnitroguanidine in rats	*Chang Tsung-Hsien, Lee Yu-Chung, Lee Kwang-Yung, Sun Cheng-Hsien, Chang Yee-Ping*
1077	Organ, species, and compound specificity in the metabolic activation of primary aromatic amines	*Jay M. Poupko, Teresa Radomski, Regina M. Santella, Jack L. Radomski*
1081	Antitumor activity of a water-insoluble compound entrapped in liposomes on L1210 leukemia in mice	*Christiane Brassinne, Ghanem Atassi, János Frühling, Willy Penasse, André Coune, Jerzy Hildebrand, Jean-Marie Ruysschaert, Chantal Laduron*
1087	Colony morphology and heritability of anchorage-independent growth among spontaneously transformed Balb/3T3 cells	*Harry Rubin, Cynthia A. Romerdahl, Berbie M. Chu*
1097	Induction of DNA strand breaks and chromosome abnormalities by an imide derivative of 3-nitro-1,8-naphthalic acid (mitonafide) in Chinese hamster ovary cells	*Akira Nishio, Edwin M. Uyeki*
1103	Prolonged antitumor effect of indomethacin on autochthonous intestinal tumors in rats	*Morris Pollard, Phyllis H. Luckert*
1107	Enhancing effect of vitamin E on murine intestinal tumorigenesis by 1,2-dimethylhydrazine dihydrochloride	*Bela Toth, Kashinath Patil*
1113	Serial circulating immune complex levels and mitogen responses during progressive tumor growth in WF rats	*Mary L. Rodrick, Glenn Steele, Jr., Donald S. Ross, Stephen J. Lahey, Joseph M. Deasy, Anthony A. Rayner, Paul J. Harte, Richard E. Wilson, Alelia E. Munroe, Vincent P. King*
1119	Contribution of body weight and growth to risk of anterior pituitary gland tumors of the rat	*Morris H. Ross, Edward D. Lustbader, Gerrit Bras*
1127	Protein A-independent tumoricidal responses in dogs after extracorporeal perfusion of plasma over *Staphylococcus aureus*	*Bruce R. Gordon, Robert E. Matus, Stuart D. Saal, E. Gregory MacEwen, Arthur I. Hurvitz, Kurt H. Stenzel, Albert L. Rubin*
1135	Increased tumorigenesis induced by *N*-nitrosobis(2-oxopropyl)amine in Syrian golden hamsters fed high-fat diets	*Diane F. Birt, Parviz M. Pour*
1139	Development of a model of chronic lymphocytic leukemia in inbred strain 2 guinea pigs	*Marc E. Key, Jane S. Brandhorst, Corazon Bucana, Michael G. Hanna, Jr.*

Special Report

1151	Diet, nutrition, and cancer: Interim dietary guidelines	*Sushma Palmer, Kulbir Bakshi*

Announcements

1171 Scientists Center for Animal Welfare 1983 Journalism Award

1171 Massachusetts Institute of Technology Special Summer Program

1171 Twentieth National Meeting of the Reticuloendothelial Society

1171 Twenty-seventh Annual Clinical Conference

Vol 71, No. 1—JULY 1983

Guest Editorial

1	Epidemic acquired immune deficiency syndrome: Epidemiologic evidence for a transmissible agent	*Donald P. Francis, James W. Curran, Myron Essex*

Investigations on Man

5	Oral contraceptive use and fibrocystic breast disease with special reference to its histopathology	*Harris Pastides, Jennifer L. Kelsey, Virginia A. LiVolsi, Theodore R. Holford, Diana B. Fischer, Ira S. Goldenberg*
11	Heterogeneity of acute lymphocytic leukemia cell surface markers as detected by monoclonal antibodies	*Dean L. Mann, Barton F. Haynes, Charles Thomas, Diane Cole, Anthony S. Fauci, David G. Poplack*
19	Binding of *Ulex europaeus* agglutinin-I in polyposis coli: Comparative study with solitary adenoma in the sigmoid colon and rectum	*Suguru Yonezawa, Takao Nakamura, Sadao Tanaka, Kenzo Maruta, Mitsumasa Nishi, Eiichi Sato*
25	Evaluation of a radioimmunoassay for α_1-acid glycoprotein to monitor therapy of cancer patients	*Patricia A. Ganz, William E. Shell, Zoltán A. Tökés*
31	Lung cancer and other causes of death among licensed pesticide applicators	*Aaron Blair, Dan J. Grauman, Jay H. Lubin, Joseph F. Fraumeni, Jr.*
39	Cytomegalovirus isolations from cell cultures derived from Epstein-Barr virus-associated nasopharyngeal carcinoma	*Claude Desgranges, Jean-Marie Seigneurin, Monique Baccard, Sliman Nejmi*
45	Prognostic significance of leukocyte-dependent antibody activity in melanoma patients	*Peter Hersey, Anne Edwards, Elaine Murray, William H. McCarthy, Gerald W. Milton*
55	Antiestrogenic action of 3-hydroxytamoxifen in the human breast cancer cell line MCF-7	*Werner Roos, Liliane Oeze, Roland Löser, Urs Eppenberger*

Investigations on Nonhuman Systems

61	Primary harderian gland neoplasms in mice	*Winslow G. Sheldon, MariBeth Curtis, Ralph L. Kodell, Linnea Weed*
69	Effects of phorbol esters on normal and tumorous mouse mammary epithelial cells embedded in collagen gels	*Raphael C. Guzman, Rebecca C. Osborn, James E. Richards, Satyabrata Nandi*
75	Inhibitory effects of molybdenum on esophageal and forestomach carcinogenesis in rats	*Xian-Mao Luo, Hui-Juan Wei, Shiang P. Yang*
81	Liver and forestomach tumors and other forestomach lesions in rats treated with morpholine and sodium nitrite, with and without sodium ascorbate	*Sidney S. Mirvish, Shahrokh Salmasi, Samuel M. Cohen, Kashinath Patil, Ezzat Mahboubi*
87	Inhibition by tuftsin of Rauscher virus leukemia development in mice	*Ahuva Knyszynski, Philip Gottlieb, Mati Fridkin*
91	Malignant rabbit fibroma virus: Observations on the culture and histopathologic characteristics of a new virus-induced rabbit tumor	*David S. Strayer, Gary Cabirac, Stewart Sell, Julian L. Leibowitz*
105	Immunohistology of malignant rabbit fibroma virus—a comparative study with rabbit myxoma virus	*David S. Strayer, Stewart Sell*
117	Differential expression of tumor-associated antigens in human colon carcinomas xenografted into nude mice	*David V. Gold, Dan Shochat, F. James Primus, Daniel L. Dexter, Paul Calabresi, David M. Goldenberg*
125	Early histopathologic events to evolution of colon cancer in C57BL/6 and CF1 mice treated with 1,2-dimethylhydrazine	*Michael J. Wargovich, Alan Medline, W. Robert Bruce*
133	Nuclear aberrations as a short-term test for genotoxicity to the colon: Evaluation of nineteen agents in mice	*Michael J. Wargovich, Mark T. Goldberg, Harold L. Newmark, W. Robert Bruce*
139	Loss of expression of transplantation antigens encoded by the *H-2K* locus on Lewis lung carcinoma cells and its relevance to the tumor's metastatic properties	*Noah Isakov, Shulamit Katzav, Michael Feldman, Shraga Segal*
147	Plasma cell infiltrate of the primary tumor as a source of early systemic protection against metastases in mice	*Jan Vaage, Karen G. Pepin*

157	Effects of polychlorinated biphenyls on lung and liver tumors initiated in suckling mice by *N*-nitrosodimethylamine	*Lucy M. Anderson, Kathleen van Havere, John M. Budinger*
165	Pathogenesis of tumors induced with *N*-nitrosomethylpiperazine in the olfactory region of the rat nasal cavity	*Hildegard M. Reznik-Schüller*
173	Immunologic, biochemical, and ultrastructural characterization of the leukemia cell in F344 rats	*P. C. Stromberg, J. L. Rojko, L. M. Vogtsberger, C. Cheney, R. Berman*
183	Genotypic and phenotypic evolution of a murine tumor during its progression in vivo toward metastasis	*Alain E. Lagarde, Terrence P. Donaghue, James W. Dennis, Robert S. Kerbel*
193	Promotion of syngeneic intraocular tumor growth in mice by anterior chamber-associated immune deviation	*Jerry Y. Niederkorn, J. Wayne Streilein, Margaret L. Kripke*
201	Effect of duration of high fat intake on enhancement of mammary carcinogenesis in rats	*Thomas L. Dao, Po-Chuen Chan*
207	In vitro interaction of 7,12-dimethylbenz[*a*]anthracene and its biliary metabolites with dietary fibers	*Wayne P. Gulliver, Karunakaran P. Kutty, Janet M. Laher, James A. Barrowman*
211	Endocardial tumors induced by carbamate or fluorenylacetamide derivatives in rats	*Cornelia Hoch-Ligeti, Paul N. Harris, Harold L. Stewart*
217	In vitro induction of malignant transformation and in vivo resistance to tumor growth in the X/Gf mouse	*Fathallah Nahas, Chaim Lichtig, Harriet Gershon*

Announcements

427	Reply	*Jun-Yao Li, Frederick P. Li, William J. Blot, Robert W. Miller, Joseph F. Fraumeni, Jr.*

Guest Editorial

429	Alteration of enzymatic methylation of DNA cytosines by chemical carcinogens: A mechanism involved in the initiation of carcinogenesis	*Thomas L. J. Boehm, Dusan Drahovsky*

Investigations on Man

435	Tar yields of cigarettes and male lung cancer risk	*Christian Vutuc, Michael Kunze*
439	Antigenic heterogeneity of skin tumors of nonmelanocyte origin: Analysis with monoclonal antibodies to tumor-associated antigens and to histocompatibility antigens	*Pier Giorgio Natali, Marina Viora, Maria Rita Nicotra, Patrizio Giacomini, Aldo Bigotti, Soldano Ferrone*
449	DNA synthesis index: Higher for human gallbladders with cholesterol gallstones than with pigment gallstones	*J. Lamote, P. Putz, M. Francois, G. Willems*

455 Genetic epidemiology of breast cancer and associated cancers in high-risk families. I. Segregation analysis — *Rodney C. P. Go, Mary-Claire King, Joan Bailey-Wilson, Robert C. Elston, Henry T. Lynch*

463 Genetic epidemiology of breast cancer and associated cancers in high-risk families. II. Linkage analysis — *Mary-Claire King, Rodney C. P. Go, Henry T. Lynch, Robert C. Elston, Paul I. Terasaki, Nicholas L. Petrakis, Gail C. Rodgers, Dolores Lattanzio, Joan Bailey-Wilson*

469 Immunoglobulins intrinsic to colorectal carcinoma: An unfavorable prognostic association with IgM — *Stephen L. Jones, Eric Pihl, Alan M. Cuthbertson, Edward S. R. Hughes, William R. Johnson, Alex J. Rollo*

473 Cigarette smoking among successive birth cohorts of men and women in the United States during 1900–80 — *Jeffrey E. Harris*

481 Epidemiology of breast cancer and hair dyes — *Ernst L. Wynder, Marc Goodman*

489 Lung cancer mortality among U.S. uranium miners: A reappraisal — *Alice S. Whittemore, Alex McMillan*

501 Capillary endothelial cell migration: Stimulating activity of aqueous humor from patients with ocular cancers — *David Tapper, Daniel M. Albert, Nancy L. Robinson, Bruce R. Zetter*

507 Immunohistologic characterization of major histocompatibility antigens and inflammatory cellular infiltrate in human breast cancer — *Atul K. Bhan, Cheryl L. DesMarais*

Investigations on Nonhuman Systems

517 A new locus (*Mtv-4*) for endogenous mammary tumor virus expression and early mammary tumor development in the SHN mouse strain — *Shunsuke Imai, Yoshihiko Tsubura, Jo Hilgers, Rob Michalides*

523 Positive correlation between pancreatic DNA damage and species specificity in response to *N*-nitrosobis(2-oxopropyl)amine — *Joanne Zurlo, Daniel S. Longnecker*

529 Antitumor activity of cell walls from *Brucella abortus* — *Brigitte Collet, Anne Martin, Yvonne Le Garrec, Gerard Dubray, Louis Toujas*

535 Prognostic indicators of tumor response to *Staphylococcus aureus* Cowan strain I plasma perfusion — *Gerald L. Messerschmidt, Charles Bowles, Richard Alsaker, Kathleen McCormack, Robert H. Corbitt, Katherine R. Mosley, Albert B. Deisseroth*

539 Experimental studies in rat lungs on the carcinogenicity and dose–response relationships of eight frequently occurring environmental polycyclic aromatic hydrocarbons — *Reintraud P. Deutsch-Wenzel, Horst Brune, Gernot Grimmer, Gerhard Dettbarn, Jürgen Misfeld*

545 Vaccination against strontium-90-induced bone tumors — *Arnold E. Reif, William E. Triest*

553 Thioacetamide hepatocarcinogenesis — *Frederick F. Becker*

559 Suppression of tumorigenicity in somatic cell hybrids. II. Human chromosomes implicated as suppressors of tumorigenicity in hybrids with Chinese hamster ovary cells — *Harold P. Klinger, Thomas B. Shows*

571 Inhibitory cells in spleens of mice with low natural killer activity — *Phyllis B. Blair, Martha O. Staskawicz, Judith S. Sam*

579 Glucocorticoid binding properties of mouse thymic lymphosarcoma cell populations selected for resistance to the cytolytic effects of glucocorticoids in vivo — *Anthony K. Chan, E. Aubrey Thompson, Jr.*

583 Multiple lymphokine production by a phorbol ester-stimulated mouse thymoma: Relationship to cell cycle events — *Kimberley T. Pearlstein, Lisa Staiano-Coico, Richard A. Miller, Louis M. Pelus, Mary E. Kirch, Osias Stutman, Michael A. Palladino*

591 Murine type C retroviruses and intracisternal A-particles in human tumors serially passaged in nude mice — *Tommie S. Tralka, Carole L. Yee, Arnold B. Rabson, Nelson A. Wivel, Kurt J. Stromberg, Alan S. Rabson, José C. Costa*

601 Effect of dietary 18-carbon fatty acids on growth of transplantable mammary adenocarcinomas in mice — *S. Abraham, Lewis A. Hillyard*

607 Modification of pancreatic carcinogenesis in the hamster model. IX. Effect of pancreatitis — *Parviz M. Pour, Michihito Takahashi, Thorkatla Donnelly, Katherine Stepan*

615 Heparin effect on DNA synthesis in a murine fibrosarcoma cell line: Influence of anionic density — *Michael W. Piepkorn, Raymond A. Daynes*

619 Subchronic cigarette smoke inhalation studies in inbred Syrian golden hamsters that develop laryngeal carcinoma upon chronic exposure — *Peter Bernfeld, F. Homburger, E. Soto*

625 *N*-Nitroso-*N*-methylurea-induced mammary carcinogenesis: Effect of pregnancy on preneoplastic cells — *Clinton J. Grubbs, Donald L. Hill, Karen C. McDonough, John C. Peckham*

Special Report

629 The etiology of gastric cancer — *Sidney S. Mirvish*

Announcements

649 Medical Malpractice Seminar

649 Seventy-seventh Annual Scientific Assembly

649 International Symposium on Gynecologic Oncology, Surgery, and Urology

649 National Institutes of Health Consensus Development Conference on Drugs and Insomnia

649 UICC Postgraduate Courses on Clinical Cancer Chemotherapy

649 Nineteenth Annual San Francisco Cancer Symposium

649 Fifth Annual Meeting of the Society for Clinical Trials

649 "Cancer Surveys" Journal Available

Vol 71, No. 4—OCTOBER 1983

Guest Editorial

651 A theory of the etiology and pathogenesis of human cutaneous malignant melanoma — *C. D'Arcy J. Holman, Bruce K. Armstrong, Peter J. Heenan*

Investigations on Man

657 Homogeneously staining regions and double minutes in a human cell line: Chromatin organization and DNA content — *G. Bahr, F. Gilbert, G. Balaban, W. Engler*

663 Cell surface proteins and glycoproteins from biologically different human colon carcinoma cell lines — *Michael E. Marks, Bernice H. Danbury, Charles A. Miller III, Michael G. Brattain*

673 Lysis of fresh human tumor cells by autologous peripheral blood lymphocytes and pleural effusion lymphocytes activated by OK432 — *Atsushi Uchida, Michael Micksche*

681 A case–control study of dietary and nondietary factors in ovarian cancer — *Tim Byers, James Marshall, Saxon Graham, Curtis Mettlin, Mya Swanson*

687 Cytogenetic studies of human breast cancer lines: MCF-7 and derived variant sublines — *Jacqueline Whang-Peng, Elaine C. Lee, Chien-Song Kao-Shan, Katherine Seibert, Marc Lippman*

697 Trends in the incidence of leukemia in Denmark, 1943–77: An epidemiologic study of 14,000 patients — *Niels Ebbe Hansen, Hans Karle, Ole Møller Jensen*

703 Large bowel cancer in women in relation to reproductive and hormonal factors: A case–control study — *John D. Potter, Anthony J. McMichael*

711 Determinants of ovarian cancer risk. I. Reproductive experiences and family history — *Daniel W. Cramer, George B. Hutchison, William R. Welch, Robert E. Scully, Kenneth J. Ryan*

717 Determinants of ovarian cancer risk. II. Inferences regarding pathogenesis — *Daniel W. Cramer, William R. Welch*

723 Mitochondrial toxicity of 2,5-diaziridinyl-3,6-bis-(carboethoxyamino)-1,4-benzoquinone — *Mary Ann Oberc-Greenwood, Barry H. Smith, Carol Cooke, James R. Ellis, Paul L. Kornblith, Paul E. McKeever*

735 Cancer and other causes of death among female textile workers, 1976–78 — *Elizabeth Delzell, Seymour Grufferman*

741 Coordinate morphological and biochemical interconversion of human neuroblastoma cells — *Robert A. Ross, Barbara A. Spengler, June L. Biedler*

749 Distribution of 17β-estradiol in the sera of normal British and Japanese women — *John W. Moore, Graham M. G. Clark, Osamu Takatani, Yoshifumi Wakabayashi, John L. Hayward, Richard D. Bulbrook*

755 Extent of DNA methylation in human tumor cells — *Edward S. Diala, Marc S. C. Cheah, David Rowitch, Robert M. Hoffman*

Investigations on Nonhuman Systems

765 Effects of mitomycin C alone and in combination with X-rays on EMT6 mouse mammary tumors in vivo — *Sara Rockwell*

773 Concurrent changes in growth-related biochemical parameters during regression of hormone-dependent rat mammary tumors — *M. Katherine Foecking, Hussein Abou-Issa, Thomas E. Webb, John P. Minton*

779 β-Adrenergic receptors in pediatric tumors: Uncoupled β_1-adrenergic receptor in Ewing's sarcoma — *Jeffrey A. Whitsett, Jeffrey Burdsall, Linda Workman, Bryan Hollinger, John Neely*

787 Modulation of *N*-nitrosodimethylamine kidney tumorigenesis by unilateral hydronephrosis and multiple putrescine administrations — *Takaaki Ohmori, Ryo Tabei*

795 Single-gene abrogation of spontaneous pleomorphic SJL/J mouse reticulum cell sarcoma expression — *J. Eric Bubbers*

801 Localization of human colorectal tumor xenografts in the nude mouse with the use of radiolabeled monoclonal antibody — *John R. Zalcberg, Christopher H. Thompson, Meir Lichtenstein, John Andrews, Ian F. C. McKenzie*

809 Linkage group V of platyfishes and swordtails of the genus *Xiphophorus* (Poeciliidae): Linkage of loci for malate dehydrogenase-2 and esterase-1 and esterase-4 with a gene controlling the severity of hybrid melanomas — *Donald C. Morizot, Michael J. Siciliano*

815 Increased susceptibility of livers of aged F344/NCr rats to the effects of phenobarbital on the incidence, morphology, and histochemistry of hepatocellular foci and neoplasms — *Jerrold M. Ward*

825 Identification of Ia antigens on the murine adenocarcinoma LT-85 — *Martin A. Giedlin, W. John Martin, Gerald N. Callahan*

835 Spontaneous versus artificial lung metastasis: Discrepant effect of whole-body irradiation in NFSA2ALM and NFSA1SLM tumor systems — *Norio Suzuki*

841 Cytotoxicity and sister chromatid exchanges induced in vitro by six anticancer drugs developed in the People's Republic of China — *C. C. Huang, C. S. Han, X. F. Yue, C. M. Shen, S. W. Wang, F. G. Wu, B. Xu*

849 Enhanced survival and absence of progressive growth of transplanted rat liver-altered eosinophilic foci and neoplastic nodules in phenobarbital-treated rats — *H. Mori, K. Furuya, G. M. Williams*

855 Inhibitory effect of fumaric acid on 3-methyl-4′-(dimethylamino)azobenzene-induced hepatocarcinogenesis in rats — *Keiko Kuroda, Kiyoshi Terao, Mitsutaro Akao*

859 Enhancement of lung tumor formation in mice by dietary butylated hydroxytoluene: Dose–time relationships and cell kinetics — *Hanspeter R. Witschi, Cynthia C. Morse*

867 BALB/c mice fed milk or beef protein: Differences in response to 1,2-dimethylhydrazine carcinogenesis — *Robert L. Nutter, Daila S. Gridley, James D. Kettering, A. Gordon Goude, James. M. Slater*

Special Report

875 Serum bank for biological markers for breast cancer — *Ihor J. Masnyk, Mary Sears, Donald Corle, Vay Liang W. Go, Marlene Dunsmore*

Announcements

877 National Conference on Advances in Cancer Therapy

877 Intra-arterial and Intracavity Chemotherapy Conference

877 Sixty-sixth Annual Meeting of the American Radium Society

877 Clinical Cytopathology for Pathologists—1984 Postgraduate Course

877 Second International Conference on Malignant Lymphoma

878 Fourth International Symposium on Hyperthermic Oncology

878 "Critical Care Medicine" Report Available

Vol 71, No. 5—NOVEMBER 1983

Investigations on Man

879 Fibrin clot retractile activity in normal, established, and tumorigenic human epithelial cells in culture — *B. Azzarone, A. Macieira-Coelho, L. Curatolo, D. Brouty-Boyé, O. Varnier, M. B. Donati, L. Morasca*

887 Urinary excretion of β-aminoisobutyrate and pseudouridine in acute and chronic myeloid leukemia — *Henrik R. Nielsen, Sven-Aage Killmann*

893 Immunodiagnosis of colorectal cancer: Clinical evaluation of Tennessee antigen (Tenagen) — *Owen F. Dent, Pierre H. Chapuis, John E. Payne, Joachim Meyer, Anne M. Sutherland, Kerry J. Goulston*

897 Use of fluoresceinated complement-coated bacteria and sheep erythrocyte–antibody–complement complexes for identification of complement receptors on lymphoid cell lines: Differences in binding characteristics between cell lines of normal and malignant origin — *David Benjamin, Ian T. Magrath, Charles B. Freeman*

903	Analysis of natural killer cell cytotoxicity of cancer patients treated with recombinant interferon	*Eva Lotzová, Cherylyn A. Savary, Jorge R. Quesada, Jordan U. Gutterman, Evan M. Hersh*
911	Second cancers after radiotherapy and chemotherapy for early stages of Hodgkin's disease	*M. Henry-Amar*
917	Attempt to prevent doxorubicin-induced acute human myocardial morphologic damage with acetylcysteine	*Donald V. Unverferth, Jogikal M. Jagadeesh, Barbara J. Unverferth, Raymond D. Magorien, Carl V. Leier, Stanley P. Balcerzak*
921	A phase I trial of *β-all-trans*-retinoic acid delivered via a collagen sponge and a cervical cap for mild or moderate intraepithelial cervical neoplasia	*Frank L. Meyskens, Jr., Vivian Graham, Milos Chvapil, Robert T. Dorr, David S. Alberts, Earl A. Surwit*
927	Dexamethasone, prostaglandin A, and retinoic acid modulation of murine and human melanoma cells grown in soft agar	*Marvin D. Bregman, Elizabeth Peters, Diane Sander, Frank L. Meyskens, Jr.*
933	Nude mouse model of the melanosis syndrome	*Ellen N. Spremulli, Hendrik A. Bogaars, Daniel L. Dexter, George M. Matook, Grant A. Jolly, Richard E. Kuhn, Frank J. Cummings, Paul Calabresi*
941	Blood monocytes and tumor-infiltrating macrophages in human breast cancer: Differences in activation level as assessed by lysozyme content	*Robert J. C. Steele, Oleg Eremin, Mary Brown*

Investigations on Nonhuman Systems

947	Dietary practices of early life and age at death of rats with tumors	*Morris H. Ross, Edward D. Lustbader, Gerrit Bras*
955	Comparative study of the morphologic, histochemical, and proliferative changes induced in the large intestine of ICR/Ha and C57BL/Ha mice by 1,2-dimethylhydrazine	*John T. James, Abulkalam M. Shamsuddin, Benjamin F. Trump*
965	Carcinogenicity of potassium bromate administered orally to F344 rats	*Yuji Kurokawa, Yuzo Hayashi, Akihiko Maekawa, Michihito Takahashi, Takeshi Kokubo, Shigeyoshi Odashima*
973	Mechanism of glucocorticoid action on murine natural killer cell activity	*William I. Cox, Nikki J. Holbrook, Herman Friedman*
983	Predisposition of [^{125}I]5-iodo-2′-deoxyuridine-labeled normal and neoplastic mouse fibroblasts to lysis by normal macrophages	*Robert Evans, Denise M. Eidlen*
991	Induction of neoplastic transformation and DNA single-strand breaks in C3H/10T1/2 clone 8 cells by polycyclic hydrocarbons and alkylating agents	*Ronald A. Lubet, Edith Kiss, Mary M. Gallagher, Christine Dively, Richard E. Kouri, Leonard M. Schechtman*
999	Morphologic changes and immunochemical localization of adenosine deaminase in tissues of rats given injections of 2′-deoxycoformycin	*Boris E. Chechik, Ann Perets, Sutapa SenGupta, Bernard Fernandes*
1011	Alterations of acquired mouse mammary tumor virus DNA during mammary tumorigenesis in BALB/cfC3H mice	*Robert D. Cardiff, David W. Morris, Lawrence J. T. Young*
1021	Sequential morphologic changes during methapyrilene-induced hepatocellular carcinogenesis in rats	*Hildegard M. Reznik-Schüller, Marybelle Gregg*
1033	Modulation of deoxycytidine metabolism in vivo with high-dose thymidine in mice	*Daniel S. Zaharko, Joseph M. Covey*
1041	Body weight, dietary practices, and tumor susceptibility in the rat	*Morris H. Ross, Edward D. Lustbader, Gerrit Bras*
1047	Metabolism and activation of 1,1-dimethylhydrazine and methylhydrazine, two products of nitrosodimethylamine reductive biotransformation, in rats	*Héctor M. Godoy, María I. Díaz Gómez, José A. Castro*

1053	Effect of the synthetic protease inhibitor [*N,N*-dimethylcarbamoylmethyl 4-(4-guanidinobenzoyloxy)-phenylacetate] methanesulfate on carcinogenesis by 3-methylcholanthrene in mouse skin	*M. Ohkoshi, S. Fujii*
1059	Modification of pancreatic carcinogenesis in the hamster model. X. Effect of streptozotocin	*Parviz M. Pour, Kashinath Patil*
1067	Endocardial tumors in rats exposed to durable fibrous materials	*Cornelia Hoch-Ligeti, Bernard Sass, Harold J. Sobel, Harold L. Stewart*
1073	Decreased sensitivity to colchicine-mediated inhibition of metabolite uptake in isolated hepatoma cells	*Michael A. Lea*
1077	Reserpine and carcinogenesis: Inhibition of carcinoma formation in mice	*Aurel Lupulescu*
1085	Modification of pancreatic carcinogenesis in the hamster model. XII. Dose-related effect of ethanol	*Parviz M. Pour, Howard A. Reber, Katherine Stepan*
1089	Possible role of glutathione in the antitumor effect of a copper-containing synthetic superoxide dismutase in mice	*Larry W. Oberley, Keith L. Rogers, Loren Schutt, Terry D. Oberley, Susan W. C. Leuthauser, John R. J. Sorenson*

Meeting Highlights

1095	Summary of United States–Japan cooperative seminar on human hepatocarcinogenesis, January 20–22, 1983, in Honolulu, Hawaii	*Hans Popper, Wataru Mori*

Announcements

1101	Seventh Annual NIH Research Safety Symposium
1101	Symposium on Comparison of Mechanisms of Carcinogenesis by Radiation and Chemical Agents
1101	Thirty-Seventh Annual Symposium on Fundamental Cancer Research
1101	Eighth Annual Symposium of The Cancer Research Center
1101	Fourth National Conference on Human Values and Cancer
1101	Fifth Conference on Water Chlorination—Call for Papers
1102	Ninth International Convocation on Immunology

Vol 71, No. 6—DECEMBER 1983

Letters to the Editor

1103	Oral cancer and mouthwash use	*R. G. Newcombe, T. M. Arendorf*
1104	Reply	*William J. Blot, Deborah M. Winn, Joseph F. Fraumeni, Jr.*
1105	Reply	*E. L. Wynder, Geoffrey C. Kabat*

Guest Editorial

1107	Chromosomes, genes, and cancer: A classification of chromosome abnormalities in cancer	*Fred Gilbert*

Investigations on Man

1115	Nipple aspirate cytology for the study of breast cancer precursors	*Eileen B. King, Karen L. Chew, Nicholas L. Petrakis, Virginia L. Ernster*
1123	Setting priorities for occupational cancer research and control: Synthesis of the results of occupational disease surveillance studies	*Robert Dubrow, David H. Wegman*
1143	Familial chronic lymphocytic leukemia	*Carolyn Y. Neuland, William A. Blattner, Dean L. Mann, Mary C. Fraser, Shien Tsai, Douglas M. Strong*
1151	Estrogen exposure during gestation and risk of testicular cancer	*Robert H. Depue, Malcolm C. Pike, Brian E. Henderson*
1157	Altered heterogeneity of monocytes in acute myelomonocytic leukemia	*Barry T. Shannon, Sarah Finkelstein, Jeane P. Hester, H. Hugh Fudenberg, Ezio Merler*
1165	Screening for possible drug carcinogenicity: Second report of findings	*Gary D. Friedman, Hans K. Ury*
1177	Role of plasminogen in matrix breakdown by neoplastic cells	*Emil Bogenmann, Peter A. Jones*
1183	Inhibition by bovine endothelial cells of degradation by HT-1080 fibrosarcoma cells of extracellular matrix proteins	*Margaret Heisel, Walter E. Laug, Peter A. Jones*
1189	Inhibition of differentiation and proliferation of colony-stimulating factor-induced clonal growth of normal human marrow cells in vitro by retinoic acid	*Edward C. Bradley, Francis W. Ruscetti, Howard Steinberg, Carolyn Paradise, Kathleen Blaine*
1193	A new human breast carcinoma cell line (PMC42) with stem cell characteristics. II. Characterization of cells growing as organoids	*Robert H. Whitehead, Paul Monaghan, Lorna M. Webber, Ivan Bertoncello, Angela A. Vitali*
1205	Second neoplasms after Wilms' tumor in childhood	*Frederick P. Li, James Cai-jie Yan, Stephen Sallan, J. Robert Cassady, Jr., Jane Danahy, William Fine, Richard D. Gelber, Daniel M. Green*

Investigations on Nonhuman Systems

1211	Cytokinetic and cytotoxic effects of urea on HeLa cells in suspension cultures	*A. D. Glinos, G. N. Bardi, K. C. Dermitzaki, S. A. Perez, M. J. Talieri*
1221	Chemotherapy of human yolk sac tumor heterotransplanted in nude mice	*Masumi Sawada, Yoshiaki Matsui, Yoshio Okudaira*
1227	Phenotypic instability of rat mammary tumor epithelial cells	*Damien J. Dunnington, Christine M. Hughes, Paul Monaghan, Philip S. Rudland*
1241	Growth, metastasis, immunogenicity, and chromosomal content of a nickel-induced rhabdomyosarcoma and subsequent cloned cell lines in rats	*J. Pot-Deprun, M-F. Poupon, F. L. Sweeney, I. Chouroulinkov*
1247	Drug-induced immunogenic changes of murine leukemia cells: Dissociation of onset of resistance and emergence of novel immunogenicity	*M. C. Fioretti, R. Bianchi, L. Romani, E. Bonmassar*
1253	An epidermoid carcinoma cell line derived from hamster 7,12-dimethylbenz[*a*]anthracene-induced buccal pouch tumors	*Onatolu Odukoya, Joel Schwartz, Ralph Weichselbaum, Gerald Shklar*
1265	Proliferative responses of mouse mammary glands to 17β-estradiol and progesterone and modification by mouse mammary tumor virus	*Audrey E. Lee*
1271	T-cell lineage of a Friend virus-induced lymphatic leukemia in athymic rats	*Marc I. Lorber, Peter J. Dawson, Michael R. Loken, John M. Ely, A. Howard Fieldsteel, Frank W. Fitch*

1281	Cell surface α-D-galactopyranosyl end groups: Use as markers in the isolation of murine tumor cell lines with different cancer-causing potentials	*James Varani, Edmund J. Lovett III, Max Wicha, Herb Malinoff, J. Philip McCoy, Jr.*
1289	Phenylthioalkylamines in experimental tumor treatment in mice	*Victor DiStefano, Irene Evans, Margorie Myers-Robfogel, James Estes, Stephen A. Godleski*
1295	Carcinogenicity of dipyrone in (C57BL/6 × C3H)F_1 mice	*Hisajiro Kumagai, Akihiko Kawaura, Masashi Shibata, Hisashi Otsuka*
1299	Effect of various levels of dietary butylated hydroxyanisole on methylazoxymethanol acetate-induced colon carcinogenesis in CF1 mice	*Bandaru S. Reddy, Yosiichi Maeura, John H. Weisburger*
1307	Sequential histopathologic analysis of α-hexachlorocyclohexane-induced hepatic megalocytosis and adenoma formation in the HPB mouse	*Leander Tryphonas, Frank Iverson*
1319	Biologic properties of viable deletion mutants of simian virus 40 (SV40) rescued from the cells of an SV40-induced hamster lymphocytic leukemia	*George Th. Diamandopoulos, Gordon Carmichael*
1327	Experimental induction of pancreatic carcinomas in the hamster with N^5-(*N*-methyl-*N*-nitrosocarbamoyl)-L-ornithine	*Daniel S. Longnecker, Thomas J. Curphey, Elna T. Kuhlmann, Barbara K. Schaeffer*
1337	Lack of correlation of growth attenuation of murine lymphoma caused by in vitro passage with loss of lactate dehydrogenase virus	*Robert J. Johnson, Hyun S. Shin*
1343	Enhanced immunogenicity of line 10 guinea pig hepatocarcinoma cells after culture	*Laura L. Correll, Larry D. Nielsen, Peter J. Kelleher, John W. Harbell, Percy Minden*

Announcements

1347	St. Jude Children's Research Hospital Eighteenth Annual Clinical Symposium
1347	Advanced Course on Clinical Cancer Chemotherapy
1347	Third International Conference on Cancer Nursing in the 80's
1347	Twentieth Annual Meeting of the National Council on Radiation Protection and Measurements
1347	The University of Texas System Cancer Center Conference
1347	"Ethics for a Categorical Institution" Conference
